

**Academic Year 2020-21**

**Syllabus**  
**SENIOR K.G.**

## *Aims and Objectives*

The curriculum developed for class Sr. Kg aims at helping the child unfold his/her talents, to facilitate and guide the child to sharpen his mental and physical abilities. It helps to enhance the learning, speaking, writing and listening skills of the child.

The programme is based on a child – centered approach wherein through play-way method the basic concepts are taught. The main emphasis is laid on Learning Planets where the students will get first hand practical experiences by exploring the different planets through different activities and interaction. A typical day in class Sr. Kg. starts with the Morning Prayer followed by a 15 minute free / general knowledge and conversation session during which the children will get an opportunity to share their experiences at home and outside the school.

At the end of each day, 15 minutes will be devoted to rhyme and storytelling, phonic sessions with general conversation including moral education, vocabulary building and other relevant topics. Language Enrichment Programme is focused to motivate the child to speak in English and develop English speaking environment in the class. Art and Craft & other Activities focuses for the creative skills and hand eye co ordination of the child.

All the festivals will be discussed with the children as and when they occur. How and why they are celebrated will be discussed along with their significance.

The syllabus thus aims at an all round personality development to guide the child to develop himself as a better human being.
